

Workshop for Doctoral Students at UHK

1.4.2026 - | Univerzita Hradec Králové

Survey Design for Decision-Making: From Questions to Actionable Evidence aneb Jak navrhnout dotazník pro co nejefektivnější výzkum.

We invite all doctoral students to a workshop on 10 April from 9:00 at Building J (FIM), computer lab J15, where you will learn or further develop your approach to designing and analyzing questionnaires.

Specifically, you will learn how to:

- Formulate a clear research problem and define variables correctly
- Design effective questionnaires aligned with research objectives
- Select appropriate analytical methods for data processing
- Interpret results to produce concrete and actionable conclusions
- Work with mediation and moderation in research
- Ensure robust interpretation of results and their reliability

The workshop will be led by **Taiwo Temitope Lasisi, Ph.D.** and **Samuel Amponsah Odei, Ph.D.**

The workshop will be conducted in **English**.
