

Asylum: new Independent Appeals Body

20.4.2026 - | Her Majesty's Revenue and Customs

The Home Secretary has made a commitment to set up a new Independent Appeals Body as part of reform of the asylum system.

This call for evidence is seeking views, evidence and practical insights into how the new Independent Appeals Body should be designed to operate effectively, efficiently and in a way that ensures fair access to justice for all users.

Responses will help inform the legislation establishing the new body and support decisions on its governance, processes and operational framework.
