

Přihlaste se na Blended Intensive Program: Data Analytics for Sustainable Finance (University of Udine)

7.1.2025 - Barbora Holková | Institut ekonomických studií FSV UK

We are excited to announce the Blended Intensive Program (BIP) on Data Analytics for Sustainable Finance, organized by the University of Udine in partnership with TH Köln, University of Maribor, University of Münster, University of Zagreb, University of Udine and several leading financial institutions. BIP is a new short mobility experience within the Erasmus+ program, which combines remote learning and interactive in-person learning, bringing together students from several universities and countries.

Program Details:

Main Topic: Data Analytics for Sustainable Finance, including practical work on Bloomberg Terminal. **Target Participants:** 3rd-year Bachelor's level students or Master's level students with intermediate knowledge of Data Analytics. **Number of Slots:** A maximum of 12 students from IES FSV UK. **Credits:** The program awards **6 ECTS** towards your degree.

Program Structure:

- 2 online sessions in April
- One-week onsite program from May 25th to June 1st in Pordenone, Italy
- Online exam

For more details, please see the program and general information.

Costs:

- Accommodation, meals, and travel costs are covered by participants.
- **Students are eligible for Erasmus+ support: €79/day**
- Hotel accommodation: Rooms in a hotel nearby are secured for participants (€42/night).

How to Apply: Send the following documents to lenka.stastna@fsv.cuni.cz:

- CV
- motivation letter
- transcript of grades

Deadline for Applications: Monday, January 27th, 2025

We look forward to receiving your applications!
