

Vacancy: Inspector of Air Accidents (Engineering) - closing 3 May 2026

10.4.2026 - | Her Majesty's Revenue and Customs

The Air Accidents Investigation Branch is recruiting for an Inspector of Air Accidents (Engineering).

Can you apply your professional and technical knowledge to aircraft accident investigation, show integrity and tact, be reliable under pressure and accept responsibility?

Do you have a broad technical and analytical capability across a wide range of aircraft engineering subjects and knowledge of aircraft operations?

Do you have drive, determination and sound judgement?

If so, this is an excellent opportunity to contribute to improving aviation safety in a unique and challenging role!

As part of a multi-disciplinary team, your primary role will be to determine the engineering factors in aircraft accidents and serious incidents. You will conduct the investigation of all engineering aspects, from the initial 'on site' examination phase to the detailed forensic examination of evidence culminating in the production of detailed reports and Safety Recommendations.

A full job description and role profile is on the Civil Service Jobs website. Reference number: 456928

Read more about our work here.

The deadline for applications is 11:55 pm on Sunday 3 May 2026.
