Water situation: area monthly reports for England

14.4.2026 - | Her Majesty's Revenue and Customs

Monthly local reports on rainfall, soil moisture deficit, river flows, groundwater levels and reservoir levels.

These reports collect information from the Environment Agency, the Met Office and water companies that measure and monitor:

- the amount of rain that falls
- how dry the soils are and how much rain they can soak up
- the amount of water flowing in rivers
- the amount of water stored below ground in aquifers and above ground in reservoirs

They also present the outlook for river flow and groundwater.

See reports for previous months on the UK government web archive.
