

UK Clinical Research Delivery key performance indicators: methodology

15.4.2026 - | Her Majesty's Revenue and Customs

Detailed information on the sources, quality and scope of the UK Clinical Research Delivery programme key performance indicators.

This methodology accompanies the UK Clinical Research Delivery (UKCRD) programme key performance indicators (KPIs) report.

The aim of this document is to help users understand how the statistics were compiled, the quality and scope of the data reported, and how the data can be used. It is intended for users who wish to understand the technical aspects of the publication.

This document will be updated regularly as further information is added to these reports.
