

Grenfell Tower: community update February 2026

24.2.2026 - | Her Majesty's Revenue and Customs

An update on work to carefully take down Grenfell Tower, including dust, noise and vibration monitoring reports.

The government recognises that Grenfell Tower has a deep personal significance to those most affected by the tragedy and that all work at the Grenfell Tower site is sensitive. We are continuing to share information about the Tower, and listen to bereaved families, survivors and residents in the immediate community.

In this community update we provide information about how the government and its contractors are starting to take down Grenfell Tower with respect and care. This update is translated into 12 additional languages.

We are also publishing information about our monitoring of noise, dust and vibration levels.

- Noise monitoring report: 5 January to 1 February 2026
- Dust monitoring report: 5 January to 1 February 2026
- Vibration monitoring report: 5 January to 1 February 2026
