

Drought: how it is managed in England

8.4.2026 - | Her Majesty's Revenue and Customs

How the Environment Agency works with government, water companies and others to manage water resources during a drought in England.

This document sets out:

- the impacts of drought in England
- who is involved in planning, managing and responding and how we work together
- the actions we and others take to effectively manage droughts
- how we report on drought and communicate with others
- our role in recovery and learning from drought events
