

National Framework for Water Resources 2025: water for growth, nature and a resilient future

15.4.2026 - | Her Majesty's Revenue and Customs

Explores England's long term water needs, setting out the scale of action needed to ensure resilient supplies and an improved water environment.

The National Framework for Water Resources 2025 builds on the foundation provided by:

- the 2020 framework
- water resources management plans and regional water resources plans
