

Drive with Carín León on Waze

8.9.2026 - | Google Italia

Known for his unmistakable voice, laid-back personality and Sonoran roots, Carín León joins Waze as your new driving compa, bringing the spirit of Northern Mexico along for the ride. Whether you're cruising with the music up or stuck in traffic, Carín keeps things relaxed, turning every drive into a good time.

Expect friendly guidance, Sonoran expressions and plenty of Carín's signature humor. From telling you to "*ponte trucha*" to inviting you for some *carne asada* after the drive, your *compa* is always riding shotgun, ready with the right route, a good tune and something to make the road more fun.

Activate the custom "Norteno" Mood, featuring Carín's iconic tilted Texana with its signature feather, and swap your car icon for the "CoyoCar," inspired by his Sonoran cowboy spirit and life on the road.

This new driving experience is available in English and Spanish. Download the latest version of Waze and look for the "Carín León" banner in the menu to activate it now.
