

RENK America awarded over \$99 million contract to provide new engines and overhauls, reinforcing trusted partnership

30.9.2026 - Fabian Klee | RENK Group

The order will be fulfilled by the Muskegon site in Michigan, securing skilled jobs.

Muskegon, June 5, 2025 - RENK America, a leading provider of mobility solutions for tracked military vehicles, announced today it has been awarded a contract exceeding \$99 million by its long-standing defense customer. The award includes the delivery of new engines and comprehensive engine overhauls, underscoring RENK America's commitment to supporting mission readiness and lifecycle sustainment for their customers, both domestic and international.

This award highlights RENK America's continued role as a trusted partner in delivering high-performance, reliable engines that meet the evolving needs of the warfighter. The program will be executed from the company's facility in Muskegon, Michigan, and will sustain skilled jobs while strengthening domestic defense manufacturing.

"We are a key enabler of ground combat vehicle performance across the globe," said Ian Pain, CEO of RENK America. "We're proud to continue our decades-long partnership, supporting our customers and partners with the technologies and in-service support that keep their armed forces moving."

The effort will focus on both the production of new engines and the overhaul of fielded systems, ensuring operational efficiency and long-term supportability.

"Our customer's confidence in RENK America is rooted in our consistent performance, engineering expertise, and ability to deliver at scale," said Jim Pantano, General Manager of RENK America's Engine Business. "This award not only strengthens our strategic relationship - it's a testament to our team's commitment to excellence and our shared mission of keeping Warfighters equipped with the best mobility solutions available."

RENK America remains focused on providing both the U.S. Army and international allies with industry-leading propulsion systems that power today's and tomorrow's combat vehicles.

About the RENK Group AG

Headquartered in Augsburg, Germany, RENK Group AG is a globally leading manufacturer of mission-critical propulsion solutions across diverse military and civil end markets. Our product portfolio includes gear units, transmissions, power-packs, hybrid propulsion systems, suspension systems, slide bearings, couplings & clutches and test systems. With this broad product portfolio RENK Group AG serves, in particular, customers in industries for military vehicles, naval, civil marine, and industrial applications focused on energy. In the fiscal year 2024, RENK Group AG generated revenue of EUR 1.14 billion.
