

CTU oversees compliance with DSA during the election campaign

15.9.2025 - | Český telekomunikační úřad

The election campaign, including political advertising, is increasingly moving online. According to the European Commission's guidelines, it is therefore the role of CTU, as the Digital Services Coordinator under the DSA Regulation, to monitor how large platforms comply with their obligations under the DSA and to address any identified shortcomings with them in a timely manner.

If you suspect a violation of the DSA, including systemic failures of online platforms that could affect the integrity of the electoral processes, you may report it to dsavolby@ctu.cz or use our online form.
